

# my little cv

O hai! My name is Krisztian Hadi and I'm a designer based in Budapest.

I really like working with professionals in a good team, because I think this can be the best way to collect more experiences. I'm a great team player, I learn like a rocket, and I'm always looking for good challenges.

I'm an enthusiastic man who likes delicious food, good music, beautiful things, minimalism and connecting with people.

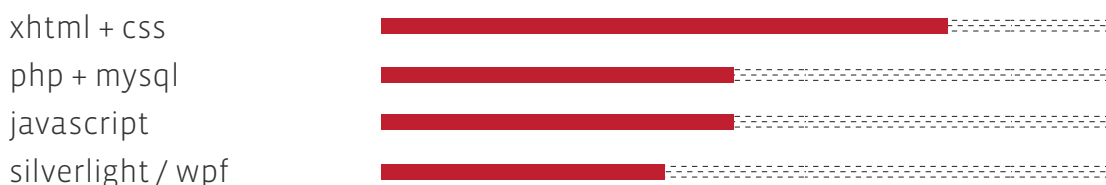

I ride a fixed gear bike, play the bassguitar, draw a lot, make photos from the world, learn martial arts and am addicted to pandas.

## what i can do

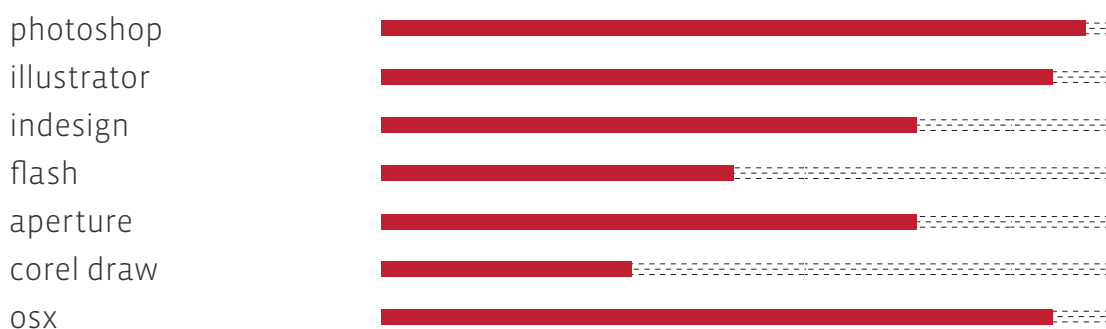

### design

### programming

### software

### language

### extra

## many workstation
